

## SCHOOL DISTRICT - COMMUNITY RELATIONS

Code 903.1.1

Policy Title: Business - Education Relationships

The Northeast Community School District will encourage and foster relationships with local, area, and national businesses and industries which may:

Assist in the evaluation and/or implementation of current or proposed educational programs;

Evaluate or recommend short or long term goals of the educational program;

Assist in attaining established short or long term goals of the educational program;

Assist in the evaluation or operation of the overall school district.

These relationships may provide the district with funds, material, facilities, personnel, or expertise.

Such relationships must provide positive benefits directly related to the educational process or school experience.

Each relationship must be evaluated by comparing the realistically anticipated benefits to the projected use of student time, teacher time, administrative time, and district resources.

No relationship shall be initiated or continued if it should be determined to violate the Code of Iowa, Board Policy, or any other law or regulation.

No relationship is to be used or construed as an actual or implied endorsement by the district of any company, service, product, or individual. All relationships are to be approved by the building principal and reviewed periodically.

The superintendent shall develop an administrative regulation to manage all relationships which deal directly with students and/or student organizations to provide goods or services.
